

Interior cleaning

Simple, efficient and cost effective.

Keep your interior surfaces clean and shiny!

Trends in interior design are towards the use of glass, stainless steel, mirrors, tables, whiteboards and many other glossy finishes.

These surfaces require specific solutions that traditional cleaning methods do not meet, resulting in poor results, increased cleaning time and costs.

Vileda Professionals interior solutions offer fast, efficient, safe and effective cleaning of these challenging interior surfaces.

Simple to use

Just spray the Interior Pad, or the surface to be cleaned, with water from the trigger bottle and wipe the surface clean.

There's nothing left behind but a streak free finish on all gloss surfaces.

Cleans effectively

The Interior Pad has been developed to effectively clean glass, mirrors, ceramics, plastics, laminates, stainless steel and many other glossy surfaces.

As the pad is bigger than the frame it even cleans into the edges and corners of window frames effectively.

Multi Functional

The Interior Pad is designed to work perfectly with a variety of cleaning tools and systems – like the 25 cm Express Pro V frame or the hand held Padboy system – all using the hook and loop attachment method.

With a telescopic handle you clean safely over balconies, plus you easily reach up to 4 m above floor level.

Benefits

- Works with just water
- Removes greasy dirt and fingerprints
- Streak free finish
- Fits a variety of tools and systems
- Use with telescopic handle for high level cleaning

Usage Areas

- Glass
- Mirrors
- Ceramics
- Plastics
- Laminates
- Stainless steel
- Whiteboards
- Safe cleaning of balconies

Vileda Professional – a part of the Freudenberg Group

Vileda Professional provides innovative cleaning solutions and systems for professional users in various application areas, such as General Building, Healthcare, HoReCa and Controlled Environment.
